Upside Down and still Chased Bill Baritompia Indecent

April 1, 2011

Remember men have partner on their left. After reverse swing men have lady on left!

- A1** #1 (gent lead) Chase and (lady) Cut Thru to left below (around N); #1 (lady lead) Chase and (gent) Cut Thru to right above (around Old N)
- A2** (All) Circle Right 3/4, Partner Reverse Swing (on ladies side)
- B1** Gents Right Allemand 1 1/2; Neighbor Reverse Swing
- B2** LLFB; Right Hand Star 1 (#1 gents get ready to lead out to left)

Variation of Over the Hill and Still Chased by Roger Diggle. Here in NZ we drive on the left, and the Coriolis effect is reverse to the northern hemisphere. Contra is fairly new here, so dancers have no preconceptions, and were able to handle the unusual formation and choreography. The ability to use reverse moves opens more choreographic and programming opportunities for us.
